## Sea Freight Services

## FCL & LCL Shipping Solutions

We specialize in providing seamless and cost-effective FCL (Full Container Load) and LCL (Less than Container Load) shipping solutions

catering to businesses of all sizes. Whether you require exclusive container space for large shipments or a flexible, shared-container option for smaller consignments, our logistics expertise ensures efficiency, reliability, and cost savings.

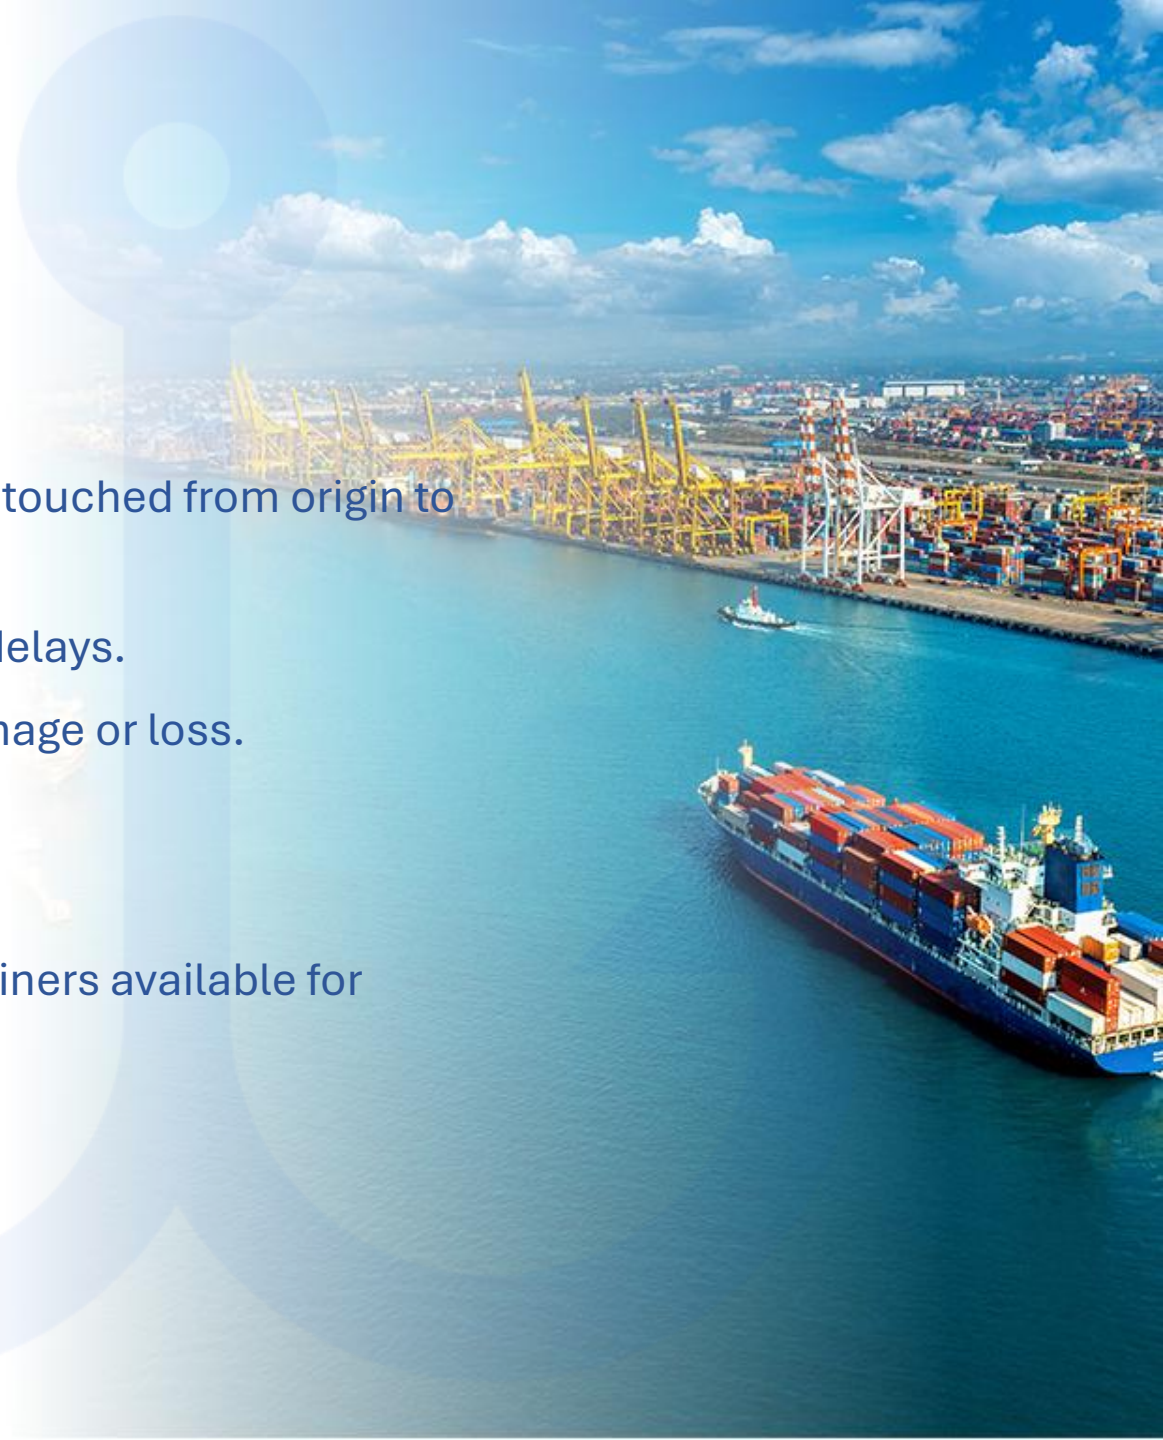

## FCL – Full Container Load Services

Our FCL services are designed for shippers who need a dedicated container for their cargo. With a global network and strong partnerships with major shipping lines, we offer:

- ⚓ Exclusive Container Use– Your cargo remains sealed and untouched from origin to destination.
- ⚓ Faster Transit Times– No consolidation or deconsolidation delays.
- ⚓ High Security & Minimal Handling – Reducing the risk of damage or loss.
- ⚓ Cost Efficiency for Bulk Shipments.
- ⚓ Competitive freight rates for high-volume cargo.
- ⚓ Various Container Options – 20ft, 40ft, and high-cube containers available for diverse shipping needs.

## LCL – Less than Container Load Services

For businesses with smaller shipments, our LCL services offer a flexible and economical solution:

Shared Container Space – Ship your goods without the need for a full container.

Lower Shipping Costs– Pay only for the space you use.

Regular Consolidation Schedules– Ensuring timely and reliable departures.

Global Reach – Connecting you to major ports and trade hubs worldwide.

Secure & Efficient Handling– Managed by our experienced logistics team.

## Air Freight Services

## Air Freight Services

- **ULD & Palletized Air Cargo:** Efficient and secured packaging.
- **Express Services:** Same-day and next-day options for urgent shipments.
- **Temperature-Controlled Logistics:** For pharmaceuticals and perishable goods.
- **Air Charters:** Full aircraft capacity for oversized, urgent, or remote delivery needs
- **Consolidation Services:** Grouping shipments to reduce costs.
- **Customs Clearance & Duty Optimization:** Including HS code validation.
- **IATA Compliance & Real-Time Tracking:** Integrated with AWB API and Cargo Ai.
- **Automated Scheduling & Pricing:** Dynamic updates from airline system
- Shipment tracking through AWB- Track & Trace API.
- Flights and routes schedule- Route & Schedule API.
- Shipping request form in case the price is not available through the application.
- API integration with the Trader In application to price and transport goods by air.

## Trucking Services

## Trucking Services

- Express Services: Same-day and next-day options for urgent shipments.
- Domestic & Cross-Border Trucking Solutions: Handles import, export, trading, customs clearance, and logistics activities.
- Specialized Equipment for Oversized & Heavy Cargo: Provides specialized equipment for oversized & heavy cargo.
- Temperature-Controlled Transport for Pharmaceuticals & FMCG: Provides temperature-controlled transport for pharmaceuticals & FMCG.
- Road Freight Network Across MENA, Europe & Asia: Global offices are located through our own offices in The Americas, Europe, Asia, and Africa.

**FREIGHTIN**  
ONE APP FOR ALL ROUTES

- Fleet management system for real-time route optimization and tracking:  
Not specified in detail.
- API integration with Google services to calculate distance and kilometers.
- Providing real-time prices for transporting the container(s) according to the price added through the control panel and the pricing employee.
- API integration with the Trader In application to price and transport goods by land.

## Chartering & Breakbulk Services

## Chartering & Breakbulk Services

Our chartering services help businesses optimize logistics, reduce transportation costs, and enhance efficiency.

**Freight In offers flexible vessel chartering solutions tailored to specific cargo needs:**

**A / Voyage Charter** – Booking vessels for specific routes and cargo loads.

**B / Time Charter** – Leasing vessels for a set period with crew and operational support.

**C / Bareboat Charter** – Long-term vessel hires without crew or maintenance services.

**D / Offshore & Tugboat Services.**

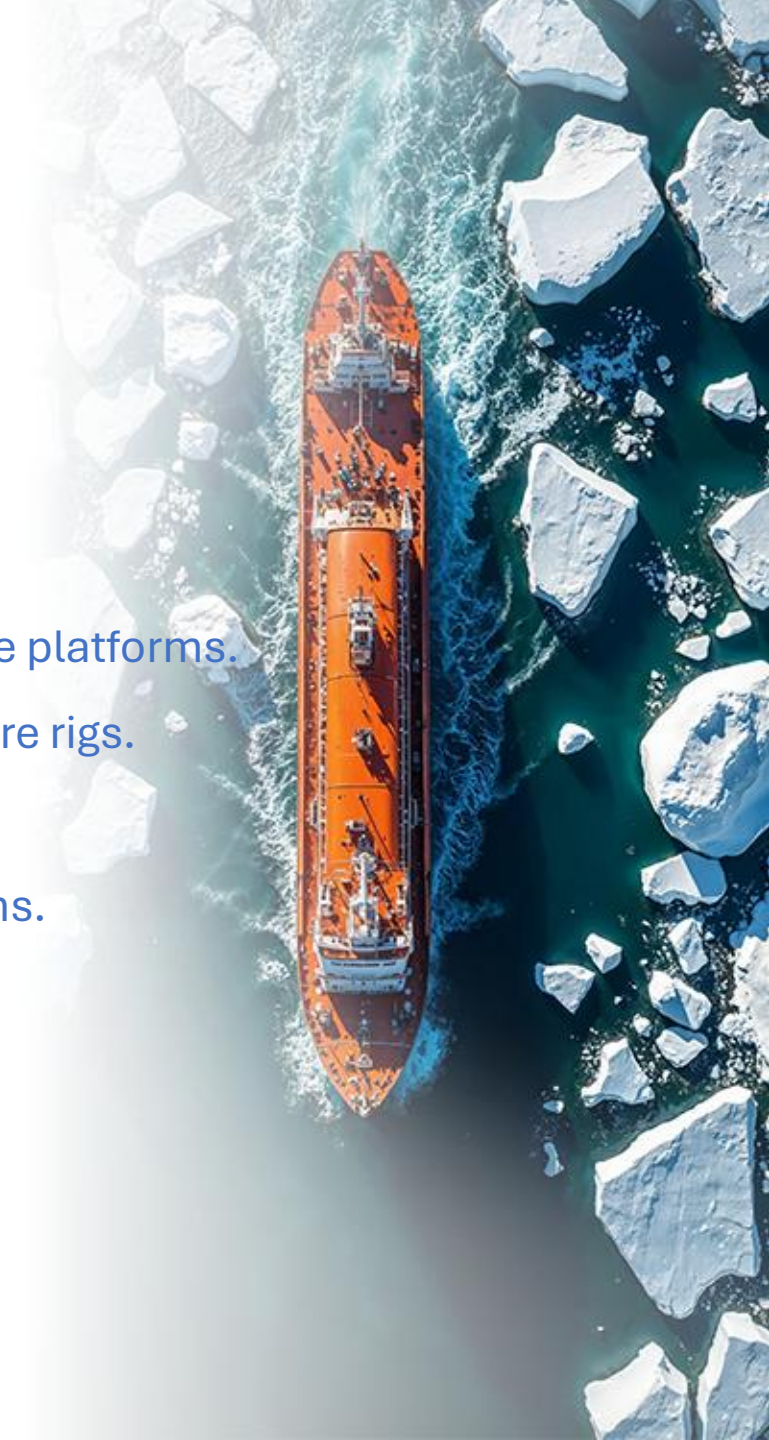

## Chartering & Breakbulk Services

**We provide vessels for offshore operations and port support, including:**

- Anchor Handling Tug Supply (AHTS) Vessels – Towing and positioning offshore platforms.
- Platform Supply Vessels (PSV) – Delivering supplies and equipment to offshore rigs.
- Utility & Crew Transfer Vessels – Transporting personnel and light cargo.
- Harbor & Ocean Tugboats – Assisting ship maneuvering and towing operations.

## Chartering & Breakbulk Services

### Types of Bulk Carriers We Handle

We work with a wide range of bulk carriers suited for different shipping needs:

- Handysize **(10,000 – 40,000 DWT)** – Ideal for regional trade.
- Supramax **(40,000 – 60,000 DWT)** – Efficient for larger cargo loads.
- Panamax **(60,000 – 80,000 DWT)** – Suitable for Panama Canal passage.
- Capesize **(80,000+ DWT)** – Designed for long-haul bulk transport.

## Vessel Trading & Sales

## Vessel Trading & Sales

As an industry leader in ship brokerage and maritime asset management, Freight In offers end-to-end support for clients seeking to purchase, sell, or finance vessels across global markets. Our services cater to shipowners, operators, investors, and leasing companies, ensuring reliable sourcing, technical compliance, and legal security.

**New & Pre-Owned Vessel Procurement:** Sourcing container vessels, tankers, general cargo ships, offshore support vessels (OSVs), and tugs based on specific operational and financial requirements.

**Sale & Purchase (S&P) Brokerage:** Professional handling of sale and charter-back deals, second-hand vessel transactions, and off-market opportunities. We negotiate optimal terms between owners and buyers.

**Vessel Valuation & Condition Survey:** Marine-certified surveys, onboard inspections, and valuation reports based on international standards and classification society guidelines.

**Legal & Financial Advisory:** Full support with Memoranda of Agreement (MOAs), financing structures, escrow handling, and compliance with maritime law. Assistance provided via our Swiss legal office.

**Dry Dock & Flag Consultation:** Support in selecting flag states, managing vessel registration, dry dock scheduling, and class renewals to meet international regulations.

**Vessel Conversion Consultation:** Assisting in modifying vessel usage (e.g., from tanker to storage unit or from passenger to cargo) with technical and class-approved solutions.

**Investment Packaging:** Tailored investment packages for institutional clients and partners seeking entry into the shipping industry. Includes ROI projections, financial modeling, and fund syndication.

**Digital Procurement Platform:** Clients can request vessels through the Freight In platform, view vessel readiness reports, track location prior to arrival, and submit investment interest forms.

**Risk Assessment & Compliance:** Due diligence covering flag history, P&I claims, maintenance logs, and regulatory standing.

Freight In's vessel trading unit provides unmatched transparency and expertise in global vessel transactions. We offer real-time access to vessel listings, condition status, and investment potential, with full confidentiality and trust.

# Container Trading

## Container Trading

Freight In facilitates global container trading through an extensive network of manufacturers, depots, and shipping lines. We support businesses looking to purchase or lease containers for storage, transport, or resale across markets worldwide.

**New & Used Container Sales:** Supply of cargo-worthy and one-trip containers in standard and specialized sizes (20ft, 40ft, HC, reefer, open top, flat rack, etc.).

**Container Leasing Solutions:** Short-term and long-term leasing programs tailored to importer/exporter needs.

**Container Certification & Survey Reports:** Inspection and certification in compliance with CSC (Convention for Safe Containers) and IICL standards.

**Container Customization:** Modifications for specialized cargo, mobile offices, storage solutions, and industrial use.

**Depot & Global Availability:** Container stock accessible across ports, inland depots, and free zones in Asia, MENA, Europe, and Africa.

**Digital Request System:** Clients can submit inquiries and place orders directly via the Freight In app for streamlined processing.

**Transparent Pricing & Delivery Terms:** Up-to-date rates, flexible Incoterms (EXW, FOB, CIF), and logistics coordination.

**Buyback & Repositioning Programs:** Return policies and repositioning assistance for surplus or empty containers.

With Freight In, customers benefit from reliable sourcing, transparent transactions, and tailored solutions for every stage of their container lifecycle.

## Tender Management Services

## Tender Management Services

Freight In offers a comprehensive Tender Management Service to support large-volume shippers, manufacturers, and logistics teams in securing the most competitive transport solutions across sea, air, and land modes.

### Core Offerings:

**Tender Preparation & Submission:** Assistance in structuring and submitting RFQs, RFPs, and bidding documents.

**Centralized Bidding Platform:** Carriers submit offers through a unified system ensuring transparency and fairness.

**Carrier Evaluation:** Automated comparison of prices, lead times, service levels, and capacity commitments.

## Tender Management Services

Freight In offers a comprehensive Tender Management Service to support large-volume shippers, manufacturers, and logistics teams in securing the most competitive transport solutions across sea, air, and land modes.

### Core Offerings:

**Tender Preparation & Submission:** Assistance in structuring and submitting RFQs, RFPs, and bidding documents.

**Centralized Bidding Platform:** Carriers submit offers through a unified system ensuring transparency and fairness.

**Carrier Evaluation:** Automated comparison of prices, lead times, service levels, and capacity commitments.

## Core Offerings:

**Contract Management:** Finalize agreements and SLAs with selected carriers while ensuring legal and operational compliance.

**Bid Performance Analytics:** Post-tender analysis to track pricing trends, bid quality, and carrier reliability.

**Confidential Handling:** All tenders managed under strict data privacy policies with NDA protection.

## Platform Advantages:

- Streamlined workflows for bid comparison and approvals
- Full visibility into tender status and timelines
- Archiving of tender history for audit and re-evaluation
- Alerts and notifications for upcoming tender cycles

Whether you're managing annual freight contracts or ad-hoc large shipments, Freight In's Tender Management Services ensure you get the best deal with full confidence and control.

## Freight In Global Shippers Association (FGSA)

Freight In Global Shippers Association (FGSA) is an innovative initiative designed to optimize international freight operations. With branches across Egypt, Switzerland, Italy, the Netherlands, the UAE, and Saudi Arabia, FGSA leverages collective buying power and digital technologies to deliver significant cost savings and enhanced logistics performance.

## Key Benefits:

- **Cost Savings:** Save up to 30–40% through collective rate negotiations.
- **Priority Services:** Secure space and equipment during peak seasons.
- **Simplified Logistics:** Access a digital platform for freight booking, tracking, and tendering.

## Key Benefits:

- **SME Empowerment:** Unlock large-scale benefits for small and medium businesses.
- **Real-Time Insights:** Leverage AI dashboards for smarter logistics decisions.
- **Efficient Tendering:** Centralized system for transparent, competitive bidding.
- **Sustainability:** Eco-friendly routing and shipment consolidation.
- **Networking:** Join a global alliance of exporters, importers, and logistics experts.
- **Confidentiality:** Secure data protocols and GDPR-compliant systems.

## Industries Served:

- Consumer Goods
- Retail & E-Commerce
- Manufacturing & Industrial
- Automotive
- Pharmaceuticals & Healthcare
- Perishables & Agriculture
- Chemicals
- Energy & Raw Materials
- Construction Materials
- Technology & Electronics

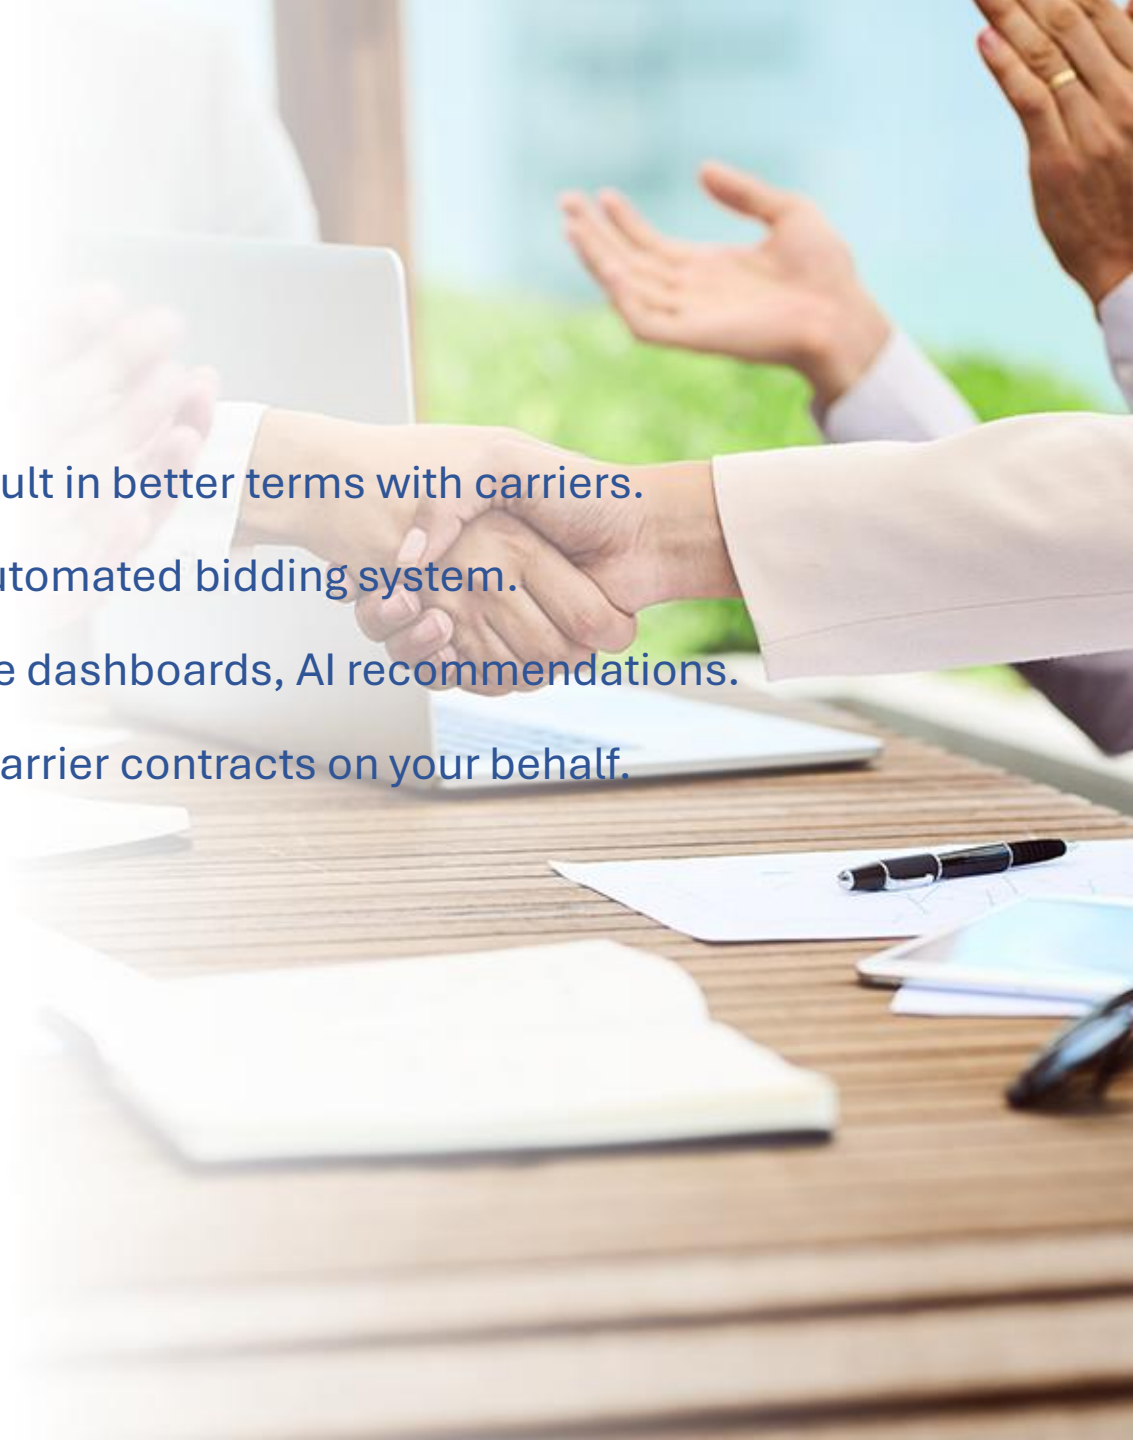

## How FGSA Delivers Value:

- **Volume-Based Negotiation:** Pooled shipment volumes result in better terms with carriers.
- **Transparent Tendering:** Fair carrier selection through an automated bidding system.
- **Advanced Platform Tools:** Real-time tracking, performance dashboards, AI recommendations.
- **Expert Negotiation Team:** Logistics professionals handle carrier contracts on your behalf.

## Confidentiality & Security:

- Anonymous data aggregation
- NDA agreements for all members
- Role-based access control

## Digital Platform Features:

- Simple member onboarding
- Real-time shipment visibility
- Tender creation & evaluation tools
- Performance tracking and analytics
- AI-powered logistics optimization
- 24/7 support and compliance updates

## Expected Outcomes:

- Up to 40% reduction in freight costs
- ROI within the first year

Join FGSA Today Optimize your supply chain, reduce freight costs, and gain access to a global logistics network—only with Freight In Global Shippers Association (FGSA).
